

Why Sigma Solutions?

Vision: Our experience designing and integrating enterprise data center solutions gives our clients access to skills and expertise beyond their in-house IT teams and traditional resellers.

Execution: Our highly-trained professional services team configures and implements complex projects with hardware and software from multiple vendors and suppliers.

Operations: Our managed services team removes the burden of managing specific IT resources, allowing in-house IT teams to focus on more strategic initiatives.

Expertise: Our unmatched technical expertise has been developed via investments in training, certification and technologies.

Proof: Our extensive lab and equipment pool is available for proof-of-concept development and "try before you buy" demonstrations.

Sigma CloudSource is powered by leading cloud providers that we select based on your individual needs:

Sigma CloudSource Powered by Rackspace – provides a range of fully managed hosting options as well as a pay-as-you-go model that allows you to scale as you grow.

Sigma CloudSource Powered by SunGard – offers a smart and secure cloud choice to address specific application performance requirements.

Sigma CloudSource Powered by iland – features a self-service, pre-built enterprise-grade cloud infrastructure that's fully compatible with VMware® environments.

Sigma CloudSource offers these cloud computing services:

- **Infrastructure as a Service** delivers compute infrastructure – typically a virtualized platform – as a service.
- **Disaster Recovery as a Service** provides a variety of cost-effective ways to replicate and recover critical systems and data center infrastructure in the cloud.
- **Storage as a Service** provides elastic capacity on demand and allows access to stored data from virtually anywhere and at any time.
- **Backup as a Service** keeps data protected and accessible at all times.
- **Hosted Collaboration Services** ensures enhanced collaboration with voice, video and other media-rich services without deploying and supporting traditional infrastructure.

Sigma Solutions is the solutions integrator of choice for enterprise companies needing a technology partner that easily transitions from the strategy of the executive suite to the operations of the data center. Learn more about Sigma Solutions at www.sigmasol.com or by calling us at 888.895.0495.
